⚠ Please read — what is incomplete / for reference only

- **Budget: reference only.** No unit costs were provided, so every budget line is TBC. Do not treat any total as an estimate — nothing here is priced by the skill.
- **Sampling quantity: TBC.** Foot traffic is unknown, so the Canada Day sample count cannot be calculated.
- **Lead times are user-supplied, not measured.** Planning 1 week, production 2 weeks, warm-up 1 week, buffer 2 days — if the real workflow is slower, every deadline moves earlier.
- **Copy content is not in this report.** The report counts copy pieces and flags the copy matrix; the actual copy is the campaign planner skill's (06) job.
- **Dates verified for 2027 only.** All anchor dates were checked against a published calendar for 2027. Do not reuse them for another year — last year's date does not prove this year's.
- **Remembrance Day observance varies locally** — confirm local observance (context date only, not a campaign).
- **Sep – Oct gap is intentional** (user choice), not a missing campaign.
- **Status: DRAFT.** This plan is unconfirmed until Gate 2. Nothing is published, scheduled, or spent.

Sample output of the campaign-calendar skill. Fictional brand, fictional numbers — format demo only. Year totals: 32 visual pieces + 20 copy pieces + roll-up banner × 1.
